Plan for Reopening to the Public

The Perry County Highway Department will unlock our door on Monday, May 18, 2020 allowing the public to enter the building through the front door into the foyer area only. The door into the office will remain locked and customers can talk to us through the roll up door which will keep everyone at least 10 feet from our desks.

Our offices and garage areas are disinfected at least twice daily.

We are also practicing social distancing with all employees and allowing only one person in a vehicle whenever possible. Several employees have chosen to drive their own personal vehicles to worksites instead of reporting to the garage.

We are doing everything we can to keep everyone as safe as possible.

A handwritten signature in black ink that reads "Noah S. Howell". The signature is written in a cursive style and is positioned above a horizontal line.

Noah s. Howell, Superintendent
